

## Taylor County Moving For A Cure

### Treatment Access Grant Application Process

Dear Cancer Survivor,

Thank you for your interest in the Treatment Access Grant. Our organization is pleased to provide you the opportunity to offset expenses as you move forward with the treatment and survivorship from your cancer diagnosis. There is no age requirement for this grant. We encourage all individuals regardless of age to apply for this grant.

To apply for this grant, the following requirements must be met:

- 1) A resident of Taylor County for at least one year (must provide address for verification).
- 2) Received or currently receiving chemotherapy, radiation and/or other treatment from a state licensed/certified oncology healthcare provider beginning May 2016.
- 3) Provide a letter from your oncologist stating you have received or currently receiving treatment beginning May 2016.

We will provide a one-time per year stipend of \$1,000.00. If you have been awarded a stipend from this fund, priority will be given to new applicants first. There are no requirements on how this money must be spent. Our hope is this funding will provide you some financial relief with paying costs toward such items as personal bills, gas for travel to appointments, groceries, and deductibles towards your costs associated with treatment or childcare.

This fund is made possible from the monies raised during our annual Taylor County Moving For a Cure 5K Run/Walk event. Once the funds are depleted for the year, we cannot award any additional funding for that current year. You can only apply one time per year for this fund. Taylor County Health Department will review the applications to assure all requirements have been met. Please contact Patty Krug, Taylor County Health Department at 715-748-1410 for any questions.

Applications can be accessed on our website: <http://tcmoving4cure.com/> or at Taylor County Health Department 224 South Second Street Medford. Applications will be available on **June 1, 2017 and accepted until all funds have been distributed.**
